THE STORY OF THREE PASSIONS

Wood • Design • Functionality

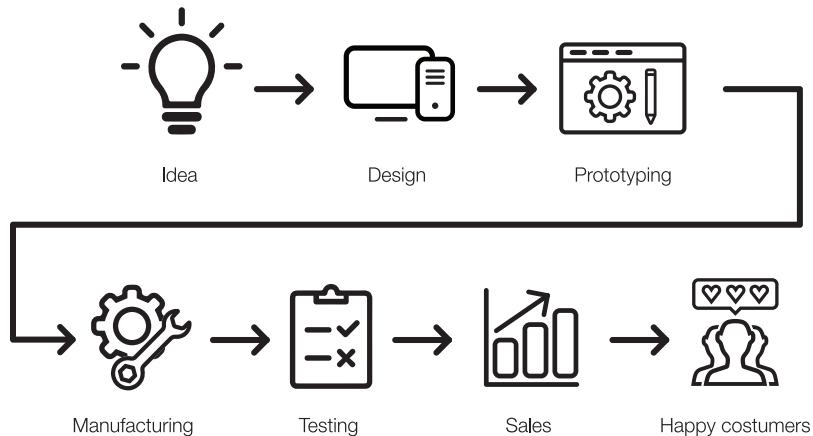

Wood will never go out of style. Its natural organic properties make it one of the most versatile elements evident in all **good design** and a simple way to bring nature to every room of your home. Because wood used to be a living organism, it contains spiritual energy that affects us in a **positive way** and helps create a **relaxing environment**.

Our products are **made with love** under the Alps. They are **handmade** by skilful craftsmen. We only do what inspires us and what we truly feel passionate about. Focusing on every detail, our mission is to design practical perfection. **Nothing is left to chance.**

FROM IDEA TO YOUR DOOR

Our studio covers all the aspects of product development

From idea, design, prototyping, manufacturing and sales - **we got it all covered**. We are a team of experts in different fields, but share the same values. We believe in transparency, environmental responsibility, outstanding design and functional solutions. All of these also result in the way we do our business.

The **multidisciplinary team** handles all the phases of the creation of the products. During the process, we constantly communicate and improve all the aspects. Instead of long supply chains, with us, you get **everything under one roof**.

Wooden hangers that pop-out of a wooden plate

Pop-out hangers are printed on a wooden board by modern technological procedures. The kids have to compose it from various elements that simply pop out of it. Compared to the classic Animal Kingdom hangers, this one is more playful, precise and engaging.

A wooden stand for all kinds of things

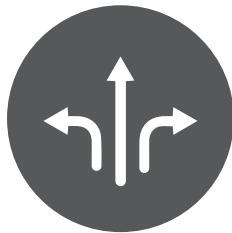

Stikke is a family of wooden stands for all the things you don't know where to put and usually end up on that chair. Admit it, we all have at least one chair in our homes that is covered with clothes and other things we don't know where to put. With that in mind, we created Stikke stands that come in various shapes and sizes.

Stikke wooden stands are simple and functional solutions that come in many varieties. Trousers, belts, coats, umbrellas, slippers, dog leashes and other items will find a new place to hang on a stylish wooden stand that is not only functional, but also space-saving.

Stikke products are easily assembled and conveniently stored in compact packaging for hassle-free shipping.

**Sitting can be more than sitting.
It can be a style. It can be a pleasure.**

Get to know one of our best-selling products. Molly is an ergonomically designed minimalist chair, which is available in three different colour variations. Its splendid design takes inspiration from the past, provides comfort for the present and is an indispensable classic for the future.

NATURE

DESIGN

ERGONOMICS

When simplicity meets efficiency.

At the intersection of tradition and modernity, the Molly chair was created. It is made of beech wood, which provides strength and durability, combined with a modern look.

The inspiration for the chair came from scandinavian classic plywood designs, but we dared to use our imagination and made a twist. Instead of forming wood into plywood, we formed plywood into wood.

The result is a simple, elegant, comfortable and multi-functional design piece.

Molly follows three basic principles:

Element of nature

It's made from natural beech plywood, which is sustainable, expressive and warm. Thin layers of wood are pressed together, sanded and coated with natural oils.

We ship our chairs disassembled. The volume of 4 disassembled chairs is the same as the volume of 1 assembled. By doing so, we reduce the carbon footprint to the maximum. Thanks to its modularity, the assemblage is very simple.

Element of design

Strong and durable beech wood combined with a modern, deliberate design is not only nice, but also very useful.

Element of ergonomics

The chair is also spine-friendly, because it ensures correct posture while sitting. Its flexible backrest adjusts itself and gives a pleasant sense of massage and relaxation to the user's back.

All Molly chairs are oiled and available in various colours or natural finish.

Molly Lounge collection

Molly lounge chair is a relaxed interpretation of the Molly chair. Lower, wider, and softer in posture, it invites you to slow down and enjoy comfort without losing elegance. Next to it, light shaped by wood. A sculptural standing lamp that brings warmth, atmosphere, and quiet character into any space. Last but not least, a simple companion to let you rest your cup of coffee. Functional, balanced, and timeless, designed to sit naturally beside you.

Molly lounger

Made for doing nothing. Extended and supportive, the Molly lounger invites deep relaxation while maintaining the elegance and simplicity of the collection.

Molly bar chair

Elevated comfort. A slim, sturdy bar chair that combines ergonomic support with a light, architectural presence.

Molly vanity

A quiet place to begin and end the day. The Molly vanity brings the collection's soft elegance into a more intimate ritual, combining clean lines with a calm, considered presence.

Molly bench

A simple place to pause. Light, balanced, and quietly functional, designed to sit naturally at the edge of the bed.

Molly office laptop stand

Ergonomics for modern work. A minimalist wooden stand that elevates your laptop, improves posture, and keeps your workspace calm and organized.

The innovative and ecological Spira Christmas tree is an elegant and durable solution for your Christmas decoration. Installation and storage are easy, but at the same time its ergonomics and timeless design allow for countless decorating options. A warm touch of wood will create a pleasant festive atmosphere in your home.
